

FUGEN presents a landmark

Multi-award winning construction company **FUGEN** is proud to present its latest project, the \$3 million refurbishment of the **ORIENT HOTEL** – a heritage-listed building and landmark in Sydney's Rocks since 1844.

The works included the complete renovation of the ground floor, beer garden, and upper level dining area, bar, kitchen and atrium to heritage standards.

Our team worked numerous night shifts to ensure the refurbishment was completed in time for the Vivid Festival, and to limit any impact on pedestrian traffic and neighbouring businesses during trading hours.

Fugen are proud to have worked with P.J. Ryan's Hotels again, on their 2nd project.
